**Village Seeks Input from Residents and Community Stakeholders  
Regarding Development Standards**

**SAVOY** – The Village is updating its subdivision, zoning, and sign regulations. This effort will combine these separate elements into a new Unified Development Ordinance that will modernize standards; streamline approval processes; enhance usability; and accommodate new and emerging technologies. This effort cannot be completed without input from Village residents, businesses, and community stakeholders.

“As the Village continues to grow, it is important that we comprehensively review our development regulations. Savoy has a reputation of being a great place to do business and to raise a family; we want to make sure our development standards and review process continue to promote that reputation. We also need to make sure that our codes are user-friendly, nimble, and adaptive to changing uses and trends in technology”, remarked Village President John Brown.

The Village is hosting an open house on Wednesday, January 25, 2023, from 6:00 PM to 7:30 PM, at the Recreation Center to gather public feedback on existing Village regulations. Topics covered will include subdivision and housing types; parking and landscaping requirements; and standards for commercial zoning districts.

Residents, businesses, and community stakeholders can also visit the project website for more information and to access an online project questionnaire. The website also provides information about upcoming events and ways to stay engaged throughout this collaborative process.
